

WE MAKE LOTO EASY!

OUR LOCKOUT TAGOUT SELECTION

LOTO
Lockout / Tagout

LOCKOUT TAGOUT

Lockout Tagout (LOTO) is the practice of securely locking and labeling energy sources during maintenance and servicing of machinery and equipment.

We have developed the **MSL 1.1 Standard** to simplify the implementation of a secure Lockout Tagout system. With the MSL 1.1 standard, you can kickstart your LOTO system with just three locks!

Interested in implementing the easy-to-use MSL 1.1 standard in your company?

We'd be happy to advise you - just reach out to us.

Free LOTO MSL 1.1 Guide available for download as a PDF!
