PROHIBITION SIGNS

Prohibition signs prohibit any behavior that compromises safety.

Prohibition signs belong to the group of safety signs. Their purpose is to prohibit certain actions and objects in order to prevent accidents and risks. Our prohibition signs are therefore an important component of safety labeling and accident prevention. They can be used indoors and outdoors, and are available in various sizes, materials, and in compliance with all relevant standards.

Available Materials

Vinyl Adhesive

Self-adhesive PVC film for indoor and outdoor use, glossy surface, cadmium-free and plasticized with polymers. Temperature resistant from -30 °C to +60 °C.

Aluminium

Signs made of aluminum, weather, UV, and temperature resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Plastic

Signs made of rigid PVC, weather-resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Luminescent

All signs are optionally available in luminescent versions. Recommended for safety and fire protection applications. Suitable for indoor use, flame retardant.

Order Prohibition Signs with Custom Pictogram & Text!

Simply order the custom text sign with number 1000 and specify your individual text and desired prohibition symbol when placing your order.

Order example:
F-20×30-1000 with the text "Entry to the construction site is prohibited" and with prohibition symbol "D-P006".

MANDATORY SIGNS

Mandatory signs specify behavior that contributes to accident prevention.

Mandatory signs are classified under safety signage and are pivotal in promoting workplace accident prevention. The pictograms indicate the requirement for wearing specific personal protective equipment and observing other precautionary measures. As such, they constitute a crucial component of occupational safety labeling. Our mandatory signs are suitable for both indoor and outdoor use, available in various sizes, materials, and compliant with all relevant standards.

Available Materials

Vinyl Adhesive

Self-adhesive PVC film for indoor and outdoor use, glossy surface, cadmium-free and plasticized with polymers. Temperature resistant from -30 °C to +60 °C.

Aluminium

Signs made of aluminum, weather, UV, and temperature resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Plastic

Signs made of rigid PVC, weather-resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Luminescent

All signs are optionally available in luminescent versions. Recommended for safety and fire protection applications. Suitable for indoor use, flame retardant.

WARNING SIGNS

Warning signs alert to hazards that may compromise safety.

Warning signs belong to the group of safety signs. They specifically warn in productive areas against injuries from hazardous substances or equipment. Our warning signs are therefore an important component in safety labeling and accident prevention. They can be used indoors and outdoors, available in various sizes, materials, and compliant with all relevant standards.

Available Materials

Vinyl Adhesive

Self-adhesive PVC film for indoor and outdoor use, glossy surface, cadmium-free and plasticized with polymers. Temperature resistant from -30 °C to +60 °C.

Aluminium

Signs made of aluminum, weather, UV, and temperature resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Plastic

Signs made of rigid PVC, weather-resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Luminescent

All signs are optionally available in luminescent versions. Recommended for safety and fire protection applications. Suitable for indoor use, flame retardant.

Order example:
F-20×30-3000 with the text "Caution! Children playing" and with warning symbol "W001".

Application Example:
No. E001 & E010

EMERGENCY & EXIT SIGNS

Emergency Signs

Emergency signs clearly indicate the presence of emergency facilities in case of an emergency.

Our emergency signs clearly indicate the presence of emergency facilities and equipment. In an emergency, every second counts. Therefore, it is crucial that equipment such as a defibrillator is clearly marked within the company.

Emergency Exit Signs

Emergency exit signs are directional signs that facilitate the rapid evacuation of buildings in emergencies.

Our emergency exit signs are a fundamental component of workplace safety. It is essential in every business that escape and rescue routes can be quickly and easily found and used in case of emergency.

Available Materials

Vinyl Adhesive

Self-adhesive PVC film for indoor and outdoor use, glossy surface, cadmium-free and plasticized with polymers. Temperature resistant from -30 °C to +60 °C.

Aluminium

Signs made of aluminum, weather, UV, and temperature resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Plastic

Signs made of rigid PVC, weather-resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Luminescent

All signs are optionally available in luminescent versions. Recommended for safety and fire protection applications. Suitable for indoor use, flame retardant.

CLEARLY VISIBLE - EVEN IN THE DARK!

The ASR A1.3 (2013) stipulates that emergency and escape route signs must be photoluminescent if no emergency lighting is available. **We recommend** using our long-lasting photoluminescent signs to ensure the visibility of emergency and escape route signs even in the event of standard lighting failure. This way, safe and quick orientation for all employees is guaranteed in an emergency.

CUBE SIGNS

Versatile, robust, and safe!

Discover our **4-sided** cube signs now: Excellent **readability** from a distance. High-quality, **weather-resistant** material. **Easy installation** thanks to included profiles and carabiners. Optionally available with **chain for ceiling suspension** in desired length. Perfect for warehouses, manufacturing, retail, and more. Available in square (e.g., collection point) and rectangle (e.g., escape route) shapes – customization is also possible, just contact us!

Benefits at a glance:

- Excellent readability from a distance
- High-quality, weather-resistant aluminum composite material
- Easy installation with chains, aluminum profiles, and hooks
- Versatile use: intersections, warehouses, production facilities, retail, and more

Do you need a completely custom shape, size, or material?
Just contact us.

FIRE SAFETY SIGNS

Fire safety signs indicate facilities and equipment used for firefighting purposes.

Fire safety signs are part of safety signage and are primarily used to indicate firefighting equipment and fire alarm systems. Proper and clear labeling is crucial in case of a fire. Our fire safety signs can be supplemented with directional arrows for even better visibility of protective equipment or resources in the event of a fire. They can be used indoors and outdoors, and are available in various sizes, materials, and compliant with all relevant standards.

Available Materials

Vinyl Adhesive

Self-adhesive PVC film for indoor and outdoor use, glossy surface, cadmium-free and plasticized with polymers. Temperature resistant from -30 °C to +60 °C.

Aluminium

Signs made of aluminum, weather, UV, and temperature resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Plastic

Signs made of rigid PVC, weather-resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Luminescent

All signs are optionally available in luminescent versions. Recommended for safety and fire protection applications. Suitable for indoor use, flame retardant.

CLEARLY VISIBLE - EVEN IN THE DARK!

The ASR A1.3 (2013) stipulates that emergency and escape route signs must be photoluminescent if no emergency lighting is available. **We recommend** using our long-lasting photoluminescent signs to ensure the visibility of fire safety signs even in the event of standard lighting failure. This way, safe and quick orientation for all employees is guaranteed in an emergency.

DANGER SYMBOLS ACCORDING TO GHS

Regulation for GHS Labeling:

Substances classified as hazardous under the Chemicals Act must be labeled according to current DIN 2403 with hazard symbols. For radioactive substances, an additional warning symbol must also be displayed.

GHS: Globally Harmonised System

Global standardisation of classification and labelling of chemicals.

CLP: Classification, Labelling and Packaging

Includes regulations for classification, labelling, and packaging of substances and mixtures. Substances have been required to be labeled according to CLP since December 1, 2010, and mixtures since June 1, 2015.

Available Materials

Vinyl Adhesive

Self-adhesive PVC film for indoor and outdoor use, glossy surface, cadmium-free and plasticized with polymers. Temperature resistant from -30 °C to +60 °C.

Aluminium

Signs made of aluminum, weather, UV, and temperature resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Plastic

Signs made of rigid PVC, weather-resistant, suitable for indoor and outdoor use. Optionally available with self-adhesive backing.

Luminescent

All signs are optionally available in luminescent versions. Recommended for safety and fire protection applications. Suitable for indoor use, flame retardant.

OUR TIP:

You can also get all GHS labels from us as labels on rolls (marking tape) or sheets.

They are perfectly suited for marking pipelines and flow direction arrows, and for combining with labels.

ORDER INSTRUCTIONS: Choose the desired design and colour for your inspection labels.

Replace the first marked position "X" in the item number with the number of your inspection label (page 49),

e.g. PR10-JP124-X

Now also insert the desired colour number at the second marked position "X", e.g. PR10-JP124-M32

Available Materials

Vinyl Adhesive

Self-adhesive PVC film for indoor and outdoor use, glossy surface, cadmium-free and plasticized with polymers. Temperature resistant from -30 °C to +60 °C.

Document Film

The document film frays into small pieces when attempting to peel it off, ensuring that the inspection label cannot be transferred intact.

ORDER INSTRUCTIONS:

Choose the desired design for your operating instructions:

Replace the marked position "3" in the item number with the number of the desired base label, e.g. PR-11624E

Mark your inspection and maintenance dates for your cables clearly with our cable inspection labels!

It's easy:

Simply mark the inspection date with a hole punch and then wrap the cable with our protective laminate.

Our transparent, self-adhesive film protects your label and ensures long-lasting readability.

Application Example:
No. KP425E-M78 & KP424E-M32

Order Custom Cable Inspection Labels!

Simply order the desired custom inspection label and provide your individual text and, if applicable, your logo.

Example:

KPP10-KP03-M32 with the year "2024" and our logo
(self-adhesive vinyl, inspection label: KP03, colour: M32 (safety red))

NOTE
Flow Direction:

One end of the pipe marker can be easily cut off, or you can order it pre-cut on one side (please specify).

PIPELINE MARKING

Pipe Markers

With our pipe markers, facilities can be professionally marked without much effort. The Max Premium films have a strong adhesive force and extremely high quality, so they are guaranteed to last and be highly visible.
Proper repair, effective firefighting and maximum occupational safety: all this is guaranteed with our pipe markers.

Most common pipe marking colour standards:

Substance	Colour	Text colour	Standard
Acids and Alkalis	M38, violet	white	European standard
Air	M22, sky blue	white	European standard
Fire Fighting	M32, safety red	white	European standard
Flammable/ Non flammable liquids/oils	M78, signal brown	white	European standard
Gas	M30, orange	black	European standard
Steam	M43, grey	black	European standard
Water	M24, safety green	white	European standard
Other	M44, safety blue	white	Defined by user
Other	M21, black	white	Defined by user
Other	M10, white	black	Defined by user
Other	M13, yellow	black	Defined by user

**ORDER CUSTOM PIPE MARKERS
DIRECTLY FROM US WITH EASE!**

Order Instructions:

1. Choose your size

Customize your pipe markers by selecting the appropriate size and item number for your project from the table.

Material		2.1 × 15.5 cm	4.4 × 32 cm	7.5 × 54 cm
Self-adhesive vinyl	Price/Pc. Item No.	€ 1.30 F-2.1×15.5- ✂	€ 2.60 F-4.4×32- ✂	€ 5.70 F-7.5×54- ✂

Example: F-2.1×15.5-~~✂~~ →

2. Specify your text (flow substance)

Set the desired text on your pipe marker by simply replacing the first marked position „✂“ in the item number with your desired text (e.g., Natural Gas).

Example: F-2.1×15.5-Natural Gas-~~✂~~ →

3. Select your colour

Decide on the desired colour of your pipe marker by replacing the second marked position „✂“ in the item number with the number corresponding to your desired colour from the colour chart.

 blau/white	 green/white	 red/white	 grey/black	 orange/black	 violet/white	 yellow/black	 brown/white
 yellow with red arrow/ black	 yellow with red stripe/ black	 brown with red arrow/ white	 brown with red stripe/ white	 yellow with black arrow/ black	 yellow with black stripe/ black	 brown with black arrow/ white	 braun with black stripe/ white
 white/black	 black/white						

Example: F-2.1×15.5-Natural Gas-D13SRB →

available upon
request.

PIPELINE MARKING

Pipe Marking Tapes with Flow Direction Arrows

Self-adhesive pipe marking tapes with flow direction arrows provide an easy way to indicate flow direction or complement existing text markings. They are suitable for both indoor and outdoor use and impress with their excellent resistance to UV light, chemicals, and moisture. These tapes are available in various sizes and colours as rolls.

Price List

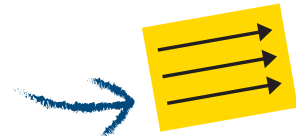

Flow Direction Arrows (Marking Tape 30m)

Item No.	Description	Width x Length	Price/Roll
L30- q	Flow direction arrows (marking tape), self-adhesive vinyl	30 mm x 30 m	€ 126
L50- q	Flow direction arrows (marking tape), self-adhesive vinyl	50 mm x 30 m	€ 139
L75- q	Flow direction arrows (marking tape), self-adhesive vinyl	75 mm x 30 m	€ 171
L100- q	Flow direction arrows (marking tape), self-adhesive vinyl	100 mm x 30 m	€ 192
