FOREWORD

Hello and welcome to the new year!

A new year brings new ideas, new projects – and of course further developments that make your daily work even more efficient. Our product portfolio has also grown, offering you proven solutions as well as exciting innovations.

With the **MultiMax V12** (page 80), we are proud to present our latest highlight: Based on the proven technology of the V8, it now allows you to print films up to 75 cm wide. This gives the V12 even more flexibility for larger applications – while maintaining the same level of quality, reliability, and intuitive operation.

Of course, our established products remain a core part of our range. The **MultiMax V8** (page 80) continues to impress as a powerful entry-level solution for professional printing and contour cutting. In combination with the **LabelCatcher** (page 86), it ensures a clean, well-structured workflow and maximum efficiency – even for large print jobs.

Our offering is rounded off by **SignMax v11** (page 94), the versatile signage software. It supports you from design to output, making complex tasks simple and clearly structured.

We thank you for your trust and look forward to supporting you again this year with well-designed products and personalized service. Should you have any questions or individual requirements, we are always happy to assist you.

We hope you enjoy discovering our catalog.
Enjoy reading,

Michael Max Meyer
Managing Director MAX Systems GmbH

OUR ENVIRONMENTAL PROMISE

MAX Systems produces with **100% green energy**. Most of the plastics for our products are made from recycled materials.

You can help:

Return empty spools, cores, cassettes and sleeves. We will reward you. Or make sure that the plastics get back into the plastic cycle.

Thank you!

COMPLETE SET
€ 1,790

Item No. 106678

plus VAT

Durable Signage and Labeling as Efficient as Never Before!

The LabelMax SP3 is very user-friendly. It is a reliable sign and label printer to print a wide range of very durable labels and signs, providing high quality printing. Changing consumables is even more comfortable now: Just plug in the film cartridge, align the tape and you are ready to print. The label and design software SignMax makes the creation of signs and labels easy and versatile like never before. Choose symbols, templates and useful clip arts from a huge Clip Art Library for fast and professional results. Create and produce pipe markers, safety signs, inspection plates as well as individual text within seconds. In addition you can import your company-logo or generate barcodes and many more.

SPECIAL-FILMS POLYESTER

Film Cartridges Polyester

The polyester film is chloride, heavy metal and plasticizer free. It is characterized by good workmanship, high adhesion and excellent resistance to UV light, acids, alkalis and solvents. Suitable for indoor and outdoor use. For printing the polyester film, a polyester ribbon is required.

Note: For all applications where chloride-free films are not explicitly required, we recommend our proven Max Premium/Max Premium Plus films (S. 29).

ONE SYSTEM - ENDLESS POSSIBILITIES!

Print Specification:

- Media width: max. 52 mm
- Print size: max. 50×325 mm
- Thermal transfer printing system with up to seven ribbons
- App-controlled, mobile, handy system

ACCESSORIES

Practical Extension of the Bundle

The LabelMax MP1 comes with an extensive bundle. In addition to the labeling system, a protective bag with magnetic backside is included, as well as ribbon and label material so you can start printing straight away.

Tablet incl. Protective Cover

Our tablet already has the SignMax MP app pre-installed and comes with a robust protective case. If desired, you can order it and get started right away.

Carrying Strap

Do you want to have your hands free while working with the LabelMax MP1? No problem! Thanks to the replaceable back of the LabelMax MP1 bag, the labeling system can be easily attached to a belt or wrapped with the carrying strap. The carrying strap is available separately from us.

FILM CARTRIDGES

Max Premium & Max Premium Plus Films

The vinyl films are cadmium-free and feature excellent resistance to UV light, chemicals and moisture. They are perfect for indoor and outdoor use. The film cassettes are protected by a sleeve so that you always have optimum protection of the material when changing the film.

Max Premium

A highly adhesive vinyl film for extremely long-lasting markings. Max Premium is the perfect film for, for example, plant and machine labeling.

Max Premium Plus

Very strong adhesive vinyl film that adheres excellently to low energy surfaces and also has very good adhesion to lightly soiled surfaces. Ideally suited for permanent markings in harsh environments.

CREATE LARGE AND EXTREMELY DURABLE MARKINGS IN THE SIMPLEST WAY.

LabelMax XL+

COMPLETE SET
€ 4,990

Item No. 106532

plus VAT

The Large Broadband Labeling System

The LabelMax XL+ is the perfect system for large labels – it produces signs up to five meters long! Thanks to the supplied knife, it also processes endless films in different widths.

We also offer various labels for the LabelMax XL+. Which makes it so incredibly versatile.

The signs are of excellent quality and are extremely resistant to various solvents, UV radiation and mechanical stress.

Designing signs is also very easy with our SignMax sign software, because thanks to a self-explanatory user interface and numerous templates, your standard-compliant sign can be designed in no time at all – without any previous knowledge.

With this broadband labeling system, you can create large and clear labels in the easiest way.

PLOTTER FILMS

Foil Glossy & Matt

Our plotter films have been designed for almost unlimited use indoors and outdoors. Universal processing properties, as well as a large selection of brilliant colours in glossy or matte make them interesting for a wide range of applications – such as vehicle, shop window or sign labels. The film has excellent resistance to UV light, chemicals and moisture and is coated with a permanently adhesive.

Foil Frosted Glass

The semitransparent foil is an optimal visual protection, or glass decoration for indoor and outdoor use. The semitransparent tape protects against prying eyes and is nonetheless permeable to daylight.

Foil glossy:

M10 white Ral +/- 9003	M13 yellow Ral +/- 1023	M30 orange Ral +/- 2008, 2004	M32 safety red Ral +/- 3020	M24 safety green Ral +/- 6029, 6016, 6032	M22 sky blue Ral +/- 9015

NEW!

THE EASY SIGN SOFTWARE

SIMPLE SIGN DESIGN FAST & WITHOUT PRIOR KNOWLEDGE

NEW IN SIGNMAX V11:

· Print Preview for Completed Documents

Completed print jobs are now also displayed in a practical pop-up window for easy preview.

· Effortless Colour Replacement

Spot colours used in your designs can now be displayed in the new Print Manager and replaced directly if needed.

· Intelligent Contour-Cut Function

Objects are automatically detected, and you can manually adjust them if necessary – perfect for precise work.

· Flexible Design

Choose between the classic user interface or a modern look, including light/dark mode.

SIGNMAX V11

SIMPLE SIGNDESIGN QUICKLY & WITHOUT PRIOR KNOWLEDGE - WITH THE ASSISTANT „WIZARD“!

The SignMax v11 is a powerful and easy-to-use signage software that perfectly combines creativity and user-friendliness. With its intuitive interface and smart features, such as the design assistant „Wizard,“ you can create signs and labels quickly, effortlessly, and cost-effectively – no prior experience required.

The new printmanager impresses with innovative features like a smart preview function, color exchange, intelligent contour-cut technology, and a flexible user interface, including light/dark mode. SignMax v11 is the perfect solution for your business, lab, or office to create custom signage in-house. Even employees without prior knowledge of safety signage can quickly acquire the necessary skills and techniques to easily implement them on their own.

The SignMax software is also available as a server version!
Just talk to us. We will be happy to advise you.

· Large Pictogram and ClipArt Library

With many sign templates and safety markings.

· Design assistant „Wizard“

For simple sign design without previous knowledge.

· Free Pictogram and ClipArt Updates

New pictograms always according to the latest standards and requirements.

· Free Live Support

If you have any questions, please do not hesitate to contact us.

· Free SignMax Workshops

All over Germany, online or on site. Spend an informative day with us in a relaxed atmosphere.

USER TRAINING*

Technical instruction directly with you on site
Get to know the many features of SignMax and the easy handling of your labeling system. We will be happy to train you and your team on site at your company.

OVERVIEW OF SIGNMAX V11 VERSIONS

SignMax v11 - Basic

Software for LabelMax SP3, VS1, XL+, TagRec Station

With the Basic version, you get all the functions you would expect from a professional sign software. Creating texts and various shapes is child's play and subsequent editing of the objects is possible at any time. In addition, you can choose from numerous templates and always receive up-to-date pictograms from us.

Basic € 729 / Item No. 113994
Basic Pro € 986 / Item No. 113998

SignMax v11 - Print & Cut

Software for MultiMax V8

With the Print & Cut version, you can use all the capabilities of the print functionality – print and cut in just one step. Design your signs and markings easily and quickly and add a cutting contour – the MultiMax takes care of everything else.

Print & Cut € 1,045 / Item No. 114001
Print & Cut Pro € 1,495 / Item No. 114003

SignMax v11 - Ultimate

Software for all systems

Our SignMax v11 Ultimate is a software for almost all systems! It includes drivers for LFP from Mimaki, HP, Epson, Roland, Graphtec and Saga. With this software you have the possibility to control your entire printing machinery. The perfect "all-in-one" complete solution for creating signs, labels, markings, graphics and much more.

Ultimate € 3,840 / Item No. 114005

Basic and Print & Cut

Program features:

- Automatic program updates
- 32 or 64 bit mode
- Windows 10 Support
- Direct X support
- Pantone colour palette
- Open multiple times
- Extensive import and export functions

BLANK SIGNS

Standard Shapes

Rectangle, Square, Circle, Triangle and Pipe Marker

Our solid blank signs are delivered blank and can be pasted with your individual labels. We deliver high quality products with precise cutting. With our modern production facilities, we are able to realize any shape and size as a cut.

We offer the blanks in different shapes, materials and sizes. On request, you can also refine the signs with holes, rounded corners or adhesive surface on the back.

Available Materials

Plastic

Signs made of hard PVC, weather-resistant, can be used indoors and outdoors.

Material thickness: 1 mm, 1.5 mm and 2 mm

Aluminium

Aluminium signs, weather-, UV- and temperature-resistant, can be used indoors and outdoors.

Material thickness: 1 mm and 1.5 mm

Standard Shapes

Unit of Sales (UoS) = 10 pc.

BLANK SIGNS

Nose & Flag Signs

A great advantage of the nose and flag signs is that they can be recognized quickly and clearly. Due to their shape, they protrude freely into the room and are therefore quickly recognizable from many sides as well as from a distance.

The flag signs are suitable for wall and ceiling mounting. The nose shields are clearly visible from all sides and are suitable for wall mounting.

Advantages at a glance:

- Light but at the same time extremely stable plastic with a thickness of 1.5 mm
- To be attached to the wall or ceiling
- With standard drill holes
- Delivered blank (unprinted)

LOTO

LOCKOUT / TAGOUT

FINALLY!
EASY. CHEAP. SAFE.

In 3 Steps to a Secure LOTO System According to MSL 1.1 Standard:

What is LOTO?

LOTO is the abbreviation of Lockout Tagout, in English „lock and tag“.

Lockout Tagout stands for the secure locking and Taging of energy sources during the maintenance and repair of machines and equipment. It was developed in the US, where the number of accidents at work has already been reduced by over 70% thanks to LOTO. Lockout Tagout is becoming increasingly popular in Europe too.

You want to introduce simple MSL 1.1 standard in your company?

We are happy to advise you! Just talk to us.

Phone: +49 4763 94595 - 0 / Mail: info@maxsystems.de

What is the MSL 1.1 Standard?

The MSL 1.1 standard was developed by MAX Systems to simplify the introduction of a secure lockout tagout system. According to our standard, the start in a LOTO system can already be made with three locks. The use of different closing locks avoids accidents resulting from the incorrect removal of locks, since it is not possible to switch on the system until every employee has removed their lock. The clear labelling of systems and energy points according to MSL 1.1 is the cornerstone of a successful and secure LOTO concept. It ensures understanding and avoids errors during use. A successful implementation of the concept requires training of all concerned employees. Due to the simple system, this can be done in a maximum of 30 minutes.

PADLOCKS MASTER LOCK

Master Lock®

INFO:

As standard we offer all locks with the locking system "Various locking".

Upon request, we can also provide them with the "Keyed alike" and "Different keyed with master key" or a grand master key locking systems.

Locking systems explained simply:

Various locking (Different keyed): Each lock can only be opened by a unique key that does not fit any other lock in the series.

Keyed alike: Each padlock has a key, and all keys are the same, opening any lock in the group.

Different keyed with master key: Each lock has a unique key, and the master key can open all locks in the system.

Aluminium MasterLock Locks:

The MasterLock Lock series S1100 & A1100 have an anodized aluminum housing and are resistant to chemicals and extreme temperatures. Due to their corrosion-resistant surface, they are ideally suited for use in harsh environments. Due to the long-lasting bright colour of the locks, they are also easily visible and provide a high level of security.

PADLOCKS ABUS

Security Tech Germany

74 ABUS Locks:

The 74 lock is a classic model with an aluminum body and plastic coating in various colours. It's durable, lightweight, and yet massive. It's characterized by its heat resistance and detectability. It's also insulated and suitable for use in hot and electrical environments and the food industry.

72 ABUS Locks:

The 72 locks are extremely robust and, despite their aluminum body, lightweight with good corrosion protection. The numerous colours are intense and provide high recognition value. With its different shackle variants, they are ideal as a complement to the rest of the safety locks.

Explanation of Symbols:

MULTIPLE LOCKING BRACKETS

Multiple locking brackets are an effective component of multi-person locking. By installing a bracket, several employees can lock a system with their padlock at the same time. The system can only be switched on again when the last employee has removed his lock from the lock bar.

GROUP LOCKING BOXES

Our group locking boxes are the perfect solution for a LOTO system according to MSL 1.1 standard. When using the boxes according to MSL 1.1 standard, the keys of the red locks are stored in the group locking boxes. The box is in turn locked with the green signal lock and each employee can attach his or her individual lock to the box. The keys in the box can only be accessed once the last employee has removed his padlock from the box.

Examples of Applications

VALVE LOCKING

Valve locks are installed on the valves of the systems during maintenance and repair work. The valve lock encloses the valve handle so that it cannot be operated by other persons. It is ensured that all employees can carry out the work on the plant without complications.

We have screw valve locks, pressure gas valve locks, flap valve locks and ball valve locks in our assortment.

Examples of Applications

END FLANGE LOCKING

The closing flange lock completely covers the flange bolts. This prevents access to the aperture until all work on the line has been completed. The adjustable parts of the locking system allow a secure fit and cover the nuts with which the panels are attached. An exact fit is ensured by the adjustable parts of the locking system and can therefore be used for several flange connections.

 304868	Flange locking	from 33 - 48 mm	€ 116
 304869	Flange locking	from 52 - 70 mm	€ 170

ELECTRICAL LOCKING

The risk of dangerous accidents involving electrical installations is high. To avoid this, we offer a wide range of locks that make the power supply inaccessible during maintenance and repair work. This allows the work to be carried out in peace and without disturbances. The locks block electrical shutdown points, wall switches, plug connections and other devices.

We have special padlocks for circuit breakers, circuit breaker locking for large and standard switches, D-safety locks for screw locks, mini circuit breaker locks and locking for electrical connectors in our assortment.

LOCKPOINT STORAGE SYSTEM

Flexible, adaptable, and scalable - the ABUS LockPoint is the perfect storage system for all LOTO (Lockout/Tagout) products.

Its modular design allows it to be tailored and efficient for any work environment in the Lockout/Tagout field. There is the possibility to attach padlock traverses, baskets with optional basket dividers, or document holders. With the optional chassis, the LockPoint is always where it is needed - right at your facility. Made of solid steel, it is perfect for use in an industrial environment.
